

Ketchup Dip Packet

Heinz and 4sight, a design and innovation firm, have redesigned the standard ketchup packet. The new design allows customers to either dip or pour ketchup, based on their desire. Two separate openings are available in the packet, based on dispensing preference.

Waste Drain Valves

T&S Brass offers new modular waste drain valves. Eighteen models are available to fit almost any sink specification. The patent-pending valve design offers superior function over comparable rotary ball valves. Stainless steel construction, push-pull valve activation, and leak-free service are just some of the features.
